Air Quality Program

GENERAL
AIR CONTAMINANT DISCHARGE PERMIT
ASSESSMENT REPORT

BULK GASOLINE PLANTS

SOURCE DESCRIPTION AND QUALIFICATION

1. This General Permit is designed to regulate air contaminant emissions from bulk gasoline plants.
2. The facilities assigned to this General Permit have no other air pollution sources which require regulation beyond that specified in this permit, or have other pollution sources that also qualify for General Permits. Facilities eligible for assignment to this permit have not experienced recurring or serious compliance problems.

ASSESSMENT OF EMISSIONS

3. Facilities assigned to this General Permit are sources of volatile organic compound (VOC) and hazardous air pollutant (HAP) emissions.
4. The Department has assessed the level of emissions of all air pollutants from these facilities and determined that facilities complying with the operational limits and monitoring requirements of this permit have emission levels below the established levels of concern stated in Tables 2 and 3 of OAR 340-200-0020.

SPECIFIC AIR PROGRAM APPLICABILITY

5. Facilities assigned to this General Permit are subject to the general visible emissions standards and nuisance requirements (control of fugitive dust and odors) in OAR Chapter 340, Division 208. The permit contains requirements and limitations to ensure compliance with these standards. The particulate matter emission limits in OAR Chapter 340, Division 226 are not applicable to these facilities because the emissions, if any, are fugitives, which cannot be measured using standard test methods.
6. Facilities assigned to this General Permit are subject to OAR Chapter 340, Division 232, Parts 0080 and 0085 and/or 40 CFR part 63 subpart BBBBBB as adopted in OAR 340, Division 244. The permit contains requirements and limitations to ensure compliance with these standards. The following table lists the permit conditions that implement 40 CFR part 63 subpart BBBBBB.

40 CFR		Permit	
63.11080		N/A	Purpose of NESHAP
63.11081		N/A	Lists affected facilities
63.11082		N/A	Lists affected sources
63.11083		3.1	Compliance dates
63.11086	a	3.3	Submerged fill
	b	3.3	Submerged fill exemptions
	c	N/A	Leak inspection (see 63.11089)
	d	3.2	Work practices
	e	N/A	Initial notification
	f	7.1	Notification of compliance status
	g	N/A	Notification exemption
	h	N/A	Compliance dates (see 63.11083)
	i	N/A	Recordkeeping and reporting (see 63.11094 and 63.11095)
63.11087		N/A	Bulk terminal and pipeline standards
63.11088		N/A	Bulk terminal and pipeline standards
63.11089		3.11	Equipment leak inspection provisions
63.11092		N/A	Testing and monitoring requirements
63.11093	a	N/A	Initial notification
	b	7.1	Notification of compliance status
	c	N/A	Notification of performance test
	d	N/A	Additional notifications
63.11094	a	N/A	Recordkeeping for bulk terminals and pipeline breakout stations
	b	N/A	Recordkeeping for bulk terminals
	c	N/A	Alternative recordkeeping for bulk terminals
	d	6.2	Recordkeeping for equipment leak provisions
	e	6.2	Equipment leak inspection log book
	f	N/A	Recordkeeping for bulk terminals
63.11095	a	N/A	Reporting for bulk terminals and pipeline breakout stations
	b	7.4	Excess emissions reports
	c	7.4	Excess emissions reports
63.11098		N/A	General provisions applicability
63.11099		N/A	Implementation/enforcement authority
63.11100		N/A	Definitions

COMPLIANCE ASSURANCE

7. Permittees are required to maintain records of production, equipment leaks, excess emissions, and complaints received at the facility. These items are reported to the Department semiannually and/or annually, as applicable.

8. Department staff members perform site inspections of the permitted facilities on a routine basis, and more frequently if complaints are received.

REVOCAATION OF ASSIGNMENT

9. Any facility that fails to demonstrate compliance, generates complaints, or fails to conform to the requirements and limitations contained in the permit may have its assignment to the General Permit revoked. The facility would then be subject to a higher, more stringent level of permitting.

PUBLIC NOTICE

10. General Air Contaminant Discharge Permits are incorporated into the Oregon Administrative Rules by reference and are part of the State Implementation Plan. As part of the rulemaking process, the public will be provided at least 30 days to submit written comments or may provide oral testimony at a public hearing that will be held at the end of the comment period in different locations throughout the state. Notice of when and where the hearings will be held will be provided at least 30 days in advance of the hearings. The Department will review any comments and may modify the permits in response to the comments. The final permits will be issued after approval by the Environmental Quality Commission.
