

Oregon E-Cycles 2008 Tier Assignments

Final as of May 1, 2008

Below are the 2008 tier assignments for Oregon E-Cycles. The Department of Environmental Quality (DEQ) determines manufacturers' tier assignments annually. A manufacturer's tier determines the registration fee a manufacturer must pay under Oregon E-Cycles and is based on their sales of computers, monitors and televisions in Oregon the previous calendar year.

Is Your Registration Up to Date?

Manufacturers who own additional brands of computers, monitors and televisions not currently registered **must** add those brands to their registration. Manufacturers of these electronics that are not on this list **must** register as a new participant.

If you have questions about registration, please contact Kelly Panciera at panciera.kelly@deq.state.or.us or 503-229-5830.
