Priority Persistent Pollutant Methods Workgroup

Meeting #2 AGENDA

Friday, February 27, 2009 -- 9 a.m. - noon

DEQ Laboratory Conference Room
3150 NW 229th
TechPointe Commons Complex, Building B
Hillsboro, Oregon
(directions follow)

Welcome and Introductions

Workgroup Charge:

To inform DEQ about the availability of, and information about analytical methods applicable to pollutants on the draft list of priority persistent pollutants. **The group will not be considering any pollutants that are not already on the draft (Step 9) list, nor will it be asked to suggest removals from the list.**

Information items by DEQ staff:

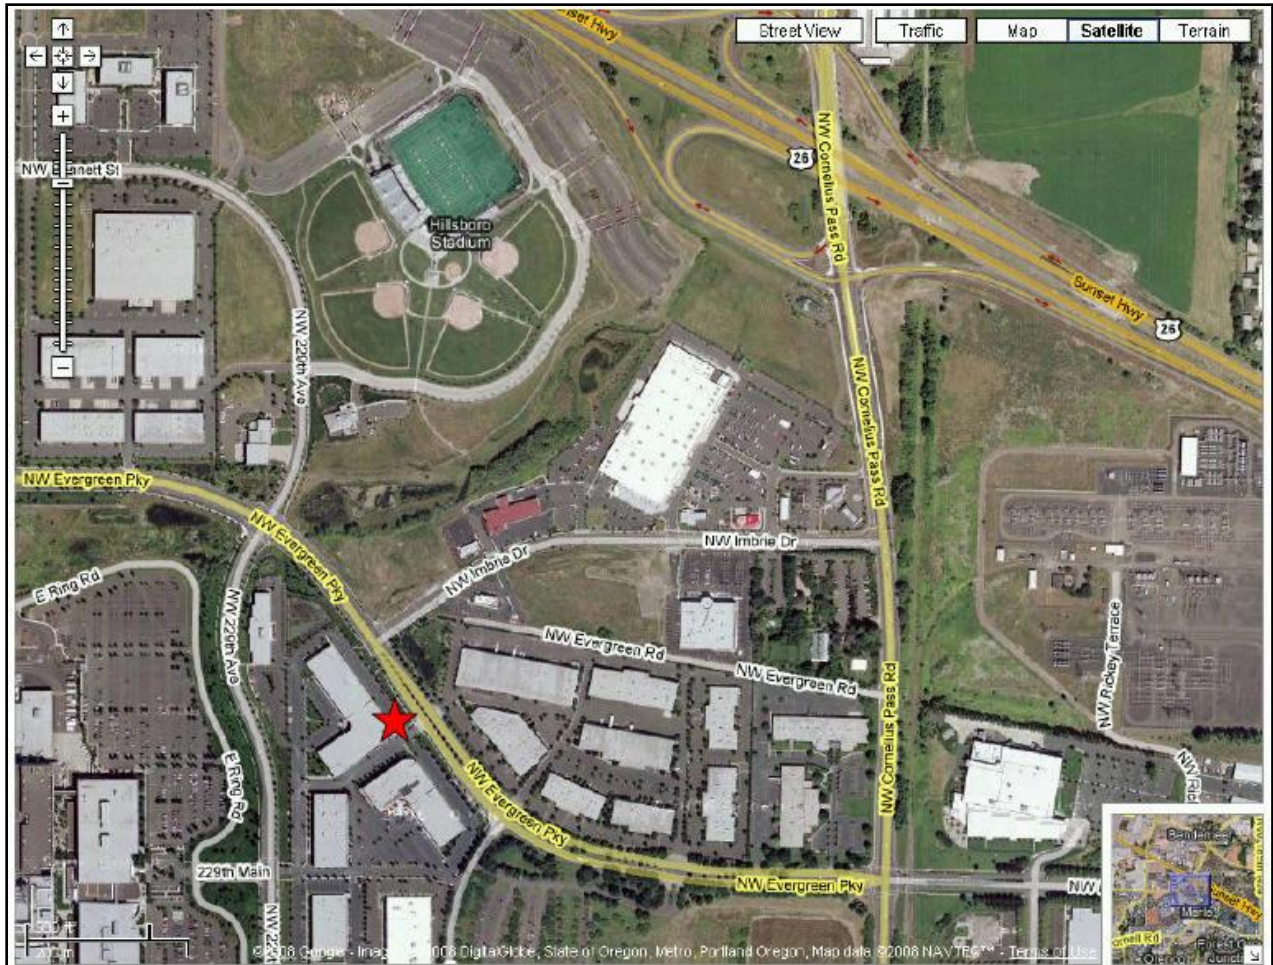

- Update on DEQ's list development process.
- How DEQ will use the information from the Methods Workgroup.

Discussion:

- Agreement on ranking criteria for available methods.
- Discuss specific chemicals and their methods.
- Discuss detection limits and cost for each chemical if time allows.

Schedule next mtg: Week of April 20th.

Adjourn

Driving Directions from Hwy 26

- **Exit Cornelius Pass Rd. South**
- **Head South on Cornelius Pass Rd.** to traffic light at Imbrie Dr (gas station)
- **Turn Right on Imbrie Dr.**
